

PROFESSIONAL DEVELOPMENT

Action Driven professional development will get results. *So, what's the difference?*

Action Driven professional development always includes specific actions that teachers can use in their classrooms to improve their results. Not to mention, our blog is designed to guide, support and motivate all members of the IEP team and, of course, it's action driven!

To ensure that your professional development results in meaningful change, use Action Driven professional development!

THE STORY

During my roles in special education, both as a teacher and administrator, I was disappointed that no one was innovating for this type of education. And with a combined 39 years of experience in the field, my wife April, who is a math teacher, and I know there is no one-size-fits-all solution. Because of this, we wanted to develop a tool that would provide effective solutions for both educators and parents of students with special needs. Thus, we took action, and Action Driven Education (ADE) was born.

ADE provides affordable problem-solving tools needed by IEP teams to support students past their disabilities by meeting their academic and behavioral needs. My goal is to make your life easier by helping you save time as you work to design individualized learning opportunities for your students. At the end of the day, we got into this field to increase children's academic achievement and improve their vocational skills. Let's make this happen together.

Through ADE and its progressive ongoing resources, subscribers can expect to find multiple solutions for various challenges. We believe in creating a brighter future for all, and we hope you'll take action with us.

THE FEATURES

Accommodations & Modifications: By aligning accomods to both student strengths and needs, users can explore many accomods using our unique Accomod Builder®, accomod browser or by keywords.

Selection & Implementation Support: Accomods aren't just a list; each accomod is a detailed guide designed to support IEP teams from development through implementation.

Big-picture Organization: Encourage IEP teams to think past testing; we've included behavioral, curriculum, learning, assessing and other accomod categories so that IEP teams consider *all* aspects of student achievement!

User-friendly Interface & Report: A unique interface that's simple to use and produces a streamlined report empowering all members of the IEP team to provide meaningful input at the click of a button.

THE APP

Accomod [ak-ko-mod] (noun): *A detailed description of an accommodation or modification used to support a student past a need*

Action Driven Education's Accomod Builder® engages IEP teams in critical thinking activities to analyze, synthesize and design appropriate accommodations and modifications to support student learning. By providing access to hundreds of detailed accommodations and modifications, otherwise known by ADE as accomods, IEP teams critique the value of potential supports in order to develop a system of support uniquely suited to meet the needs of each learner.
